

Tinsmiths' Headboards & Headboard Slip Covers – August 2019

Headboards are made to standard shapes illustrated or to a personal template, within reason. You can specify whether you would like seams piped (which requires a little more fabric) or plain, whether you want the padded board buttoned or smooth.

Slipcovers are made to fit over rectangular bedheads, they are a snug-fitting simple sleeve which can be laundered and therefore extend the life of a headboard.

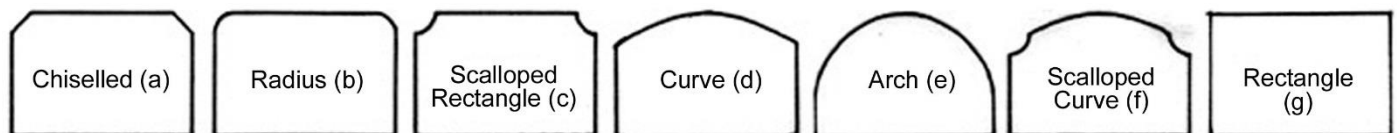

As with footstools, patterned fabric requires a little more detailed investigation and may require larger amounts of fabric to accommodate a particular centre to the design. We are happy to calculate this, just [e-mail](#) your requirements.
